To add your Card to Samsung Pay, you must register your Card through Samsung Pay either by scanning the card or entering the card details manually. You may be required to take additional steps to authenticate yourself before your Card is added to Samsung Pay, including by providing additional identifying information, Online Authorisation Code ("OAC") which will be sent to you via SMS on your registered mobile number. By adding your Card to Samsung Pay, you will be allocated a unique numerical identifier different from your Card number ("Token") which will enable you to make purchases and receive refunds through Samsung Pay. This Token will also be known as a Digital Account Number.
